**Nate Swain is proposing a Glass Garden at the corner of Richmond and North Street** within the empty concrete fenced space. It would be made with custom tiles consisting of thousands of blue and black opal glass beads inspired by the colored lights of the trellis at Christopher Columbus Park. Nate is currently talking with the North Bennet Street School about the project and would also like to get feedback from North End residents. If all parties approve, Nate plans on doing a fundraiser to pay for the artwork. He would like the project to be viewed as a building-warming gift to the North Bennet Street School from the neighborhood.
