RE: Parcel 9 Additional Information

*Ed*  
Dear Mr. Nardi:

MassDOT continues to review the Best and Final Offers for Central Artery Parcel 9 Request for Proposals (the "RFP"). In order to do so fully, MassDOT needs additional information regarding your Proposal.

Specifically, please provide any and all information regarding any arrangements, offers, contracts, commitments, or promises made by **Blackstone Market, LLC** or any of its principals or agents to the Haymarket Pushcart Association or any other third party regarding the provision and/or pricing of any services, equipment, space, direct or indirect financial support, or other benefits, including, but not limited to trash compactors, trash removal costs, storage facilities, street improvements, and any similar or related amenities regarding your proposed development on Parcel 9.

In order for MassDOT to evaluate the Proposals and designate the developer that will provide MassDOT and the Commonwealth with the best overall value, MassDOT needs to have this information in writing. Any information that you fail to provide cannot and will not be taken into account in evaluating your Proposal.

Please submit a letter addressing this request to the MassDOT Office of Real Estate and Asset Development at the address listed in Addendum 2 to the RFP, Best and Final Offer and following the procedures for submissions in Addendum 2. The letter must be delivered no later than Wednesday, January 23, 2013 at 2:00 p.m. EST.

Please note that this letter is hereby made a part of the Request for Proposals, and is subject to all terms, conditions, and reservations of the RFP, including all prior addenda thereto. MassDOT reserves all rights previously reserved in the RFP, including, without limitation, the right to seek additional information.

If you have any questions regarding this matter, please call me at 857-368-8945 or e-mail at roy.avellaneda@DOT.state.ma.us. We look forward to working with both Proposers to conclude the Parcel 9 RFP process.

Sincerely,

Roy Avellaneda
